## **TECHNICAL DATA SHEET**

# RWM HEAVY-DUTY ELECTRIC CHAIN HOIST - DUAL SPEED - 2000KG CAPACITY

MODEL: WR-2000-2/S

## DESCRIPTION

RWM hoists can be considered the Ferrari of hoist brands, and not just because they are engineered and manufactured in Italy by an in-house team.

RWM prides itself on engineering excellence: every hoist is hand-crafted from the highest quality materials. As a result, RWM hoists can safely operate in temperatures as low as -20°C and as high as +50°C – an operating range up to 40% larger than other common hoist brands. This makes RWM the go-to hoist for material handling tasks in harsher environments.

RWM hoists are also the ideal option for demanding industrial applications where uptime is critical. While many hoists have a duty cycle of 40%, RWM hoists have duty cycles as high as 15+40%.

RWM hoists and the more common economy hoists are different tools designed for various uses. Just as you wouldn't invest in a Ferrari as a run-around vehicle, you wouldn't invest in a RWM hoist if you don't require the additional quality and reliability that comes with a hand-built, European-engineered masterpiece.

Choose RWM as your go-to hoist for more challenging and demanding situations where quality and durability is paramount.

## FEATURES

- RWM Electric Chain Hoists are manufactured for Stratalign by RWM, Italy who are ISO 9001:2015 Certified.
- - Machinery Directive (DM) 2006/42/CE
  - Low Voltage Directive (DBT) 2014/35/UE
  - Electromagnetic Compatibility Directive (EMC) 2014/30/UE
- E Design Verified by a NZ registered Chartered Professional Engineer.
- Cylindrical three-phase self-braking motor with an electromagnet, all with class F insulation.
- ➡ The motor brake system is 103V electromechanical spring type.
- Hoist is IP54 rated
- ➡ The load limiter clutch is a device that limits the maximum travel both upward and downward and acts as a limiter for overloads.
- The epicyclical type gearbox is lubricated with permanent grease. It is built in high resistance steel and subjected to heat treatments, thus guaranteeing a long life. With the recommended lubricants the hoist is able to operate in environments with temperatures between -20 ° C and + 50 ° C.
- ➡ The electrical panels are produced according to the CEI-EN 60204 standard with the traditional wiring system.
- The 24V low voltage transformer allows the hoist to carry out a high number of operations equal to 240 starts / hour.

## **SPECIFICATIONS**

| SPECIFICATIONS               |   |  |  |  |  |  |  |  |  |  |  |
|------------------------------|---|--|--|--|--|--|--|--|--|--|--|
| Operating Voltage            | 400V / 50Hz / 3Ph                       |  |  |  |  |  |  |  |  |  |  |
| Load Chain                   | Load chain according to EN 818-7-DAT/DT |  |  |  |  |  |  |  |  |  |  |
| Pendant Control Cable        | 5 metre                                 |  |  |  |  |  |  |  |  |  |  |
| Power Cable                  | $\approx$ 4.5 metre without plug        |  |  |  |  |  |  |  |  |  |  |
| Hoist Protection             | IP 54                                   |  |  |  |  |  |  |  |  |  |  |
| Classification               | M5/2m (ISO/FEM)                         |  |  |  |  |  |  |  |  |  |  |
| Duty cycle / Starts per hour | 15+40% / 240                            |  |  |  |  |  |  |  |  |  |  |
| Insulation Class             | F                                       |  |  |  |  |  |  |  |  |  |  |
| Operating Temperature        | -20°C - +50°C                           |  |  |  |  |  |  |  |  |  |  |

| PROTECTION                 |  |  |  |  |  |  |  |  |
|----------------------------|--|--|--|--|--|--|--|--|
| Control Switch             | 24V pendant control switch with emergency stop button.                               |  |  |  |  |  |  |  |
| <b>Overload Protection</b> | Load limiter clutch acts as limiter for overloads.                                   |  |  |  |  |  |  |  |
| Brake                      | Electromagnetic spring pressure brake, holds the load in the event of power failure. |  |  |  |  |  |  |  |
| Limit Switch               | Electro-mechanical upper and lower limit switch.                                     |  |  |  |  |  |  |  |
| Thermal Protection         | Protected through heat sensor.   |  |  |  |  |  |  |  |

| MODEL       | CAPACITY<br>kg | LIFTING SPEED<br>m/min | LOAD CHAIN<br>Ømm | CHAIN FALLS | POWER OUTPUT<br>kW | NET WEIGHT<br>kg |
